---

Lilypad Network – New York, NY

A decentralized compute network enabling AI workloads by connecting developers to on-demand, distributed GPU power.

Developer Relations Specialist   2025 – Present

- Created tutorials, live coding demos, and a gamified module-building process to onboard developers to Lilypad.
- Led Twitter Spaces, and outreach to engage AI, Web3, and DeSci communities, driving developer adoption.

ChainSafe Gaming – New York, NY

ChainSafe Gaming is the gaming division of a blockchain protocol R&D firm.

Developer Relations Specialist   2024 – 2025

- Led a team of 9 to launch a dApp showcasing new product lines to 40,000+ users.
- Developed Web3 courses for Unity Game Engine, Chainsafe SDK, ChainSafe Gaming dashboard, NFT.Storage, and OpenZeppelin smart contracts to educate and train developers.
- Fostered relationships with developers, partners, and users, and provided feedback to the engineering team to inform product roadmap decisions.

Godwoken Blockchain – New York, NY

Godwoken Blockchain is a 100% EVM compatible L2 optimistic rollup on the secure L1 Nervos Blockchain.

Blockchain Incubator Manager and Developer Relations   2022 – 2023

- Managed a portfolio of blockchain projects with a combined budget of $220K, overseeing end-to-end execution, from coordinating Dapp launches, IDOs, and marketing efforts to ensuring all projects were delivered on time, within scope, and within budget, resulting in a 16% increase in successful launches.
- Led and facilitated development workshops at ETHDenver and ETHIndia to increase awareness of Godwoken.
- Created a gamified ambassador and community engagement programs to encourage adoption and build a strong community while managing social media and Discord channels.

Smith and Crown – New York, NY

Blockchain consulting and research firm specializing in Crypto economics and token design.

Blockchain Consulting Project Manager   2022 – 2022

- Consulted corporations and Decentralized Autonomous Organizations on meta governance, fungible and non-fungible token uses, and crypto economic design's influence on user behavior.

Mix3d – New York, NY

Community focused on Web 3 education, onboarding, networking, and building.

Co-founder, Head of Operations and Community   2021 – 2022

- Grew a Web3 community to 100+ members resulting in 5 members obtaining roles in Web3 companies, group investments, NFT collection launches, and a proof-of-concept game in Decentraland.

Invesco *(formerly Oppenheimer Funds)* – New York, NY

Global investment firm operating in 26 countries ($1.4T AUM).

Digital Operations Manager   2014 – 2019

- Analyzed specifications, models, and launch strategies for new fund creation; partnered with a team of 11 in product and engineering in 2-week sprints to analyze risks, data accuracy, & predictive performance.

Baruch College, New York, NY – BBA, *Computer Information Systems (CIS)*
Full Stack Academy, New York, NY – *Software Engineering Immersive*
